

Going to the Doctor to play

When we get to the doctor's office, we will wait until it's my turn in the waiting room.

When it is my turn the nurse will call my name and we will follow her to the exam room.

3

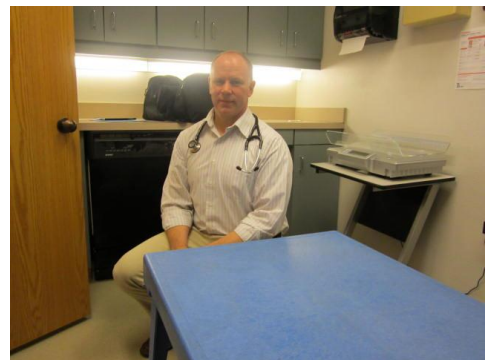

The room will have tables and chairs that I will sit at and wait for the doctor.

4

The doctor will come into the room with a bag of toys.

5

The doctor will sit at the table with me and put toys out for us to play with. We will then play together.

6

After we are done playing with the toys, the doctor may talk my parent(s) for a little bit.

7

The doctor may also do a quick exam of me. He may look at my ears, nose, throat, and body.

8

When I am all done, the doctor may give me a sticker
for doing a good job.

9

Then I will be all done and get to go home.
